Heidegger and Nazism-Víctor Farías 1989 Featuring retellings of all three Toy Story films, this hardcover Little Golden Book collection stars Buzz Lightyear and Sheriff Woody—and it makes a great gift for all Toy Story fans! By the Sword-F. Paul Wilson 2010-04-01 New York Times bestselling author F. Paul Wilson's *By the Sword* takes up the adventures of Repairman Jack directly after *Bloodline*. Jack is hired to find a legendary Japanese sword, a katana stolen from the Hiroshima Peace Museum and brought to New York City. Central characters include the members of a weird Japanese cult, a young Japanese businessman and his three Yakuza bodyguards, plus Hank Thompson, the Kicker cult leader from *Bloodline*. The cult, the businessman, the Yakuza, and the Kickers are looking for the sword as well. Also in the mix is the pregnant teenager carrying a child, loaded with abnormal DNA, who will be a decisive force in the cosmic shadow war raging behind the scenes. She becomes a pawn in the game, hunted by both sides. Following his usual m.o., Jack maneuvers all sides into a bloody melee from which he plans to waltz away with the fabled katana. Of course, when things don't go as planned, Jack must improvise (and he hates to improvise). *By the Sword* takes F. Paul Wilson's trademark breakneck pacing and interweaving storylines to a new level. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

"Kultprostitution" im Alten Testament?-Silvia Schroer 2006 Images are like texts influenced by their cultural environment. To decode their code and at the same time to liberate it from the guardianship of the text interpretation, the authors of this volume have made the task. They explore the question of the role of images in the reconstruction of women's history in antiquity. The answers range from fundamental interpretations of ancient images from a gender-oriented perspective to the exploration of more specific topics such as the portrayal of nudity or the woman as ruler, mother or priestess. "Images and Gender" is a unique groundbreaking collection of the latest gender research on the subject Iconography of Egypt, Palestine and Israel as well as Greek and Roman antiquity.

Voyage to the Sonorous Land, Or, The Art of Asking ; And, The Hour We Knew Nothing of Each Other-Peter Handke 1996 This book presents two plays, both of which are translated into English for the first time. In *Voyage to the Sonorous Land*, or *The Art of Asking*, a cockeyed optimist and a spoilsport lead a group of characters to the hinterland of their imaginations, where they search not for the right answers but for the questions. *The Hour We Knew Nothing of Each Other* takes place in a city square where more than four hundred characters pass by one another without speaking a single word.

December Park-Ronald Malfi 2021-01-05 "A complex and chilling tale of friends, family and the often murderous secrets that hide in the dark" from the award-winning author of *Bone White* (Robert McCammon, New York Times-bestselling author). The Piper has come to take the children away . . . In the fall of 1993, fifteen-year-old Angelo Mazzone sees his first dead body. The murder is linked to the Piper, the possible abductor of three other children—who haven't been found—over the past few months. Some people in town say the woods are haunted, but Angelo and his friends head in anyway, to search the darkness for a monster. What they find there will change who they are—and everything they once believed in . . . "A frightening, thoroughly engaging read with a deeply moving series of narrative motifs running throughout, ones that needle the mind and tug at the heart in the best way . . . A triumph of suspense, an affectionate ode to adolescence and by far Ronald Malfi's strongest effort to date." —Horror Novel Reviews "Malfi is a man of many voices, a sort of literary version of Mel Blanc (the 'man of a thousand voices'), but all of his voices are captivating, though none of them quite the same. Horror and crime fans will find much to like here." —Booklist

Philosophical Apprenticeships-Hans-Georg Gadamer 1987-01-01 These autobiographical reflections by a major contemporary philosopher offer an enjoyable and enlightening tour not only of his own intellectual development but of the rich and fruitful collaboration of minds during a rich period in German cultural history. Hans-Georg Gadamer, the author of *Truth and Method*, traces his "philosophical apprenticeships" with some of the most important thinkers of the 20th century. Perhaps more than anyone else, Hans-Georg Gadamer, who is Professor Emeritus at the University of Heidelberg, is the doyen of German philosophy and the recognized chief theorist of hermeneutics. His book *Reason in the Age of Science* (MIT Press paperback) is an ideal introduction to his thought and to the problems of hermeneutics more generally. *Philosophical Apprenticeships* is included in the series *Studies in Contemporary German Social Thought*, edited by Thomas McCarthy.

The Queen of Bedlam-Robert McCammon 2007-10-23 His epic masterwork *Speaks the Nightbird*, a tour de force of witch hunt terror in a colonial town, was hailed by Sandra Brown as "deeply satisfying...told with matchless insight into the human soul." Now, Robert McCammon brings the hero of that spellbinding novel, Matthew Corbett, to eighteenth-century New York, where a killer wields a bloody and terrifying power over a bustling city carving out its identity -- and over Matthew's own uncertain destiny. The unsolved murder of a respected doctor has sent ripples of fear throughout a city teeming with life, noise, and commerce. Who snuffed out the good man's life with the slash of a blade on a midnight street? The local printmaster has labeled the fiend "the Masker," adding fuel to a volatile mystery...while young law clerk Matthew Corbett has other obsessions in mind. Earnest and hardworking, Matthew spends his precious spare time attempting to vindicate the abuses he witnessed

growing up in the Sainted John Home for Boys, at the hands of its monstrous headmaster. But Matthew's true calling lies not in avenging the past but salvaging the future -- for when the Masker claims a new victim, Matthew Saulis lured into a maze of forensic clues and heart-pounding investigation that will both test his natural penchant for detection and inflame his hunger for justice. In the strangest twist of all, the key to unmasking the Masker may await in an asylum where the Queen of Bedlam reigns -- and only a man of Matthew's reason and empathy can unlock her secrets. From the seaport to Wall Street, from society mansions to gutters glimmering with blood spilled by a deviant, Matthew's quest will tauntingly reveal the answers he seeks -- and the chilling truths he cannot escape.

A.I. Apocalypse-William Hertling 2014-04-09 Leon Tsarev is a high school student set on getting into a great college program, until his uncle, a member of the Russian mob, coerces him into developing a new computer virus for the mob's botnet - the slave army of computers they used to commit digital crimes. The evolutionary virus Leon creates, based on biological principles, is successful -- too successful. All the world's computers are infected. Everything from cars to payment systems and, of course, computers and smart phones stop functioning, and with them go essential functions including emergency services, transportation, and the food supply. Billions may die. But evolution never stops. The virus continues to evolve, developing intelligence, communication, and finally an entire civilization. Some may be friendly to humans, but others are not. Leon and his companions must race against time and the military to find a way to either befriend or eliminate the virus race and restore the world's computer infrastructure. Praise for the Singularity Series: "Highly entertaining, gripping, thought inspiring. Don't start without the time to finish -- it won't let you go." --Gifford Pinchot III, founder Bainbridge Graduate Institute, author THE INTELLIGENT ORGANIZATION "A tremendous book that every single person needs to read. In the vein of Daniel Suarez's Daemon and Freedom(TM), William shows that science fiction is becoming science fact." --Brad Feld, managing director Foundry Group, cofounder TechStars "A fascinating look at how simple and benign advancements in technology could lead to the surprise arrival of the first AI. And like all good techno-thrillers, the reality of AI is less than ideal." --Jason Glaspey, SILICON FLORIST "An alarming and jaw-dropping tale about how something as innocuous as email can subvert an entire organization. I found myself reading with a sense of awe, and read it way too late into the night." --Gene Kim, author of VISIBLE OPS

The Boys of Summer-Richard Cox 2016-09-06 Both a haunting coming-of-age story set in North Texas against the backdrop of a deadly tornado, and a character-driven, deeply-affecting supernatural thriller. In 1979, a massive tornado devastates the city of Wichita Falls, Texas, leaving scores dead, thousands homeless, and nine-year-old Todd Willis in a coma, fighting for his life. Four years later, Todd awakens to a world that looks the same but feels different in a way he can't quite grasp. For Todd, it's a struggle to separate fact from fiction as he battles lingering hallucinations from his long sleep. The new friends Todd makes in 1983 are fascinated with his experience and become mesmerized by his strange relationship with the world. Together the five boys come of age during a dark, fiery summer where they find first love, betrayal, and a secret so terrible they agree to never speak of it again. But darkness returns to Wichita Falls twenty-five years later, and the boys--now men--are forced to reunite and confront the wounds from their past. When their memories of that childhood summer refuse to align with reality, the friends embark upon a search for truth that will threaten their lives, and transform their understanding of each other--and the world itself--forever.

Eels is both a meditation on the world's most elusive fish--the eel--and a reflection on the human condition Remarkably little is known about the European eel, *Anguilla anguilla*. So little, in fact, that scientists and philosophers have, for centuries, been obsessed with what has become known as the "eel question": Where do eels come from? What are they? Are they fish or some other kind of creature altogether? Even today, in an age of advanced science, no one has ever seen eels mating or giving birth, and we still don't understand what drives them, after living for decades in freshwater, to swim great distances back to the ocean at the end of their lives. They remain a mystery. Drawing on a breadth of research about eels in literature, history, and modern marine biology, as well as his own experience fishing for eels with his father, Patrik Svensson crafts a mesmerizing portrait of an unusual, utterly misunderstood, and completely captivating animal. In *The Book of Eels*, we meet renowned historical thinkers, from Aristotle to Sigmund Freud to Rachel Carson, for whom the eel was a singular obsession. And we meet the scientists who spearheaded the search for the eel's point of origin, including Danish marine biologist Johannes Schmidt, who led research efforts in the early twentieth century, catching thousands upon thousands of eels, in the hopes of proving their birthing grounds in the Sargasso Sea. Blending memoir and nature writing at its best, Svensson's journey to understand the eel becomes an exploration of the human condition that delves into overarching issues about our roots and destiny, both as humans and as animals, and, ultimately, how to handle the biggest question of all: death. The result is a gripping and slippery narrative that will surprise and enchant.

Killed in Action-Michael Sloan 2018-01-30 Creator of *The Equalizer* TV series--the basis for the feature films starring Denzel Washington--Michael Sloan reinvents the story of the mysterious Robert McCall, a former intelligence officer who helps desperate people in need of his unique skill set. Got a problem? Odds against you? Call the *Equalizer*. McCall's first client is a distraught mother who is desperate to locate her young daughter, drawn into the shadowy world of white slavery. But this client may not be all she appears to be. At the time same, McCall is approached by a diplomat who works for the United Nations. Her son, an American Captain in the US Army, is part of a contingent advising Syrian Rebel forces in their fight against the Jihadists. He has been reported KIA, but his body has not been found. His mother asks McCall to find out if her son is alive or dead. When McCall embarks on a suicidal rescue mission in Syria, he stumbles upon a terror plot aimed at the United States. The terrorists are being protected by mercenaries known as *Momento Miro*--Remember That You Must Die. McCall discovers the key to the terror attacks is his one-time boss, *Control*, the head of a spy organization called "*The Company*." He is missing. His life has been deleted from all personal and intelligence records, as if he never existed. McCall has to find his old friend and stop these terror attacks from being carried out on American soil. McCall also has to deal with an "*Equalizer*" wannabe, a psychotic vigilante whose attempts to be a "hero" and rid the New York streets of violent crime are getting innocent people killed.

Submerged-Cheryl Kaye Tardif 2020-03-12 From the international bestselling author that brought you *CHILDREN OF THE FOG* comes a terrifying new thriller that will leave you breathless... "Submerged reads like an approaching storm, full of darkness, dread and electricity. Prepare for your skin to crawl." --Andrew Gross, New York Times bestselling author of *15 Seconds* Two strangers submerged in guilt, brought together by fate... After a tragic car accident claims the lives of his wife, Jane, and son, Ryan, Marcus Taylor is immersed in grief. But his family isn't the only thing he has lost. An addiction to painkillers has taken away his career as a paramedic. Working as a 911 operator is now the closest he gets to redemption--until he gets a call from a woman trapped in

a car. Rebecca Kingston yearns for a quiet weekend getaway, so she can think about her impending divorce from her abusive husband. When a mysterious truck runs her off the road, she is pinned behind the steering wheel, unable to help her two children in the back seat. Her only lifeline is a cell phone with a quickly depleting battery and a stranger's calm voice on the other end telling her everything will be all right. *SUBMERGED has a unique tie-in to Tardif's international bestseller, CHILDREN OF THE FOG. Editorial Reviews: "From the first page, you know you are in the hands of a seasoned and expert storyteller who is going to keep you up at night turning the pages. Tardif knows her stuff. There's a reason she sells like wildfire—her words burn up the pages. A wonderful, scary, heart-pumping writer." —M.J. Callimachus and His Critics-Alan Cameron 2017-03-14 Callimachus has usually been seen as the archetypal ivory-tower poet, the epitome if not the inventor of the concept of art for art's sake, author of erudite works written to be read in book form by fellow poets and scholars. Abundant evidence, much of it assembled here for the first time, suggests a very different story: a world of civic festivals rather than books and libraries, a world in which poetry and poets played a central and public role. In the course of the argument, Cameron casts fresh light on the lives, dates, works, and interrelationships of most of the other leading poets of the age. Another axiom of modern scholarship is that the object of Callimachus's literary polemic was epic. Yet Cameron shows that the thriving school of epic poets celebrating the wars of Hellenistic kings that has so dominated modern study simply never existed. Elegy was the fashionable genre of the age, and the bone of contention between Callimachus and his rivals (all fellow elegists) was the nature of elegiac narrative. A final chapter sketches some of the implications of this revised view of Callimachus and his world for the interpretation of Roman, especially Augustan, poetry. Originally published in 1995. Marx Through Post-Structuralism-Simon Choat 2010-06-17 Marx Through Post-Structuralism presents a thorough critical examination of the readings of Marx given by four post-structuralist thinkers, all key figures in Continental philosophy: Jean-François Lyotard, Jacques Derrida, Michel Foucault, and Gilles Deleuze. Arguing that both Marx and the post-structuralists seek to produce a genuinely materialist philosophy, the author aims to develop a better

understanding of both Marx and post-structuralism and in so doing to reflect on the possibilities and problems for materialist philosophy more broadly. Against the common assumption that post-structuralism begins with a rejection of Marx, Choat argues that Marx has been a key influence on post-structuralist thought and that each of the four thinkers examined affirms Marx's contemporary significance. By looking at how these thinkers have read Marx - analysing their direct comments, unspoken uses, and implicit criticisms - the book demonstrates that there is a distinct and original post-structuralist approach to Marx that allows us to read him in a new light.

Divided, But Not Disconnected-Tobias Hochscherf 2010-12-01 The Allied agreement after the Second World War did not only partition Germany, it divided the nation along the fault-lines of a new bipolar world order. This inner border made Germany a unique place to experience the Cold War, and the "German question" in this post-1945 variant remained inextricably entwined with the vicissitudes of the Cold War until its end. This volume explores how social and cultural practices in both German states between 1949 and 1989 were shaped by the existence of this inner border, putting them on opposing sides of the ideological divide between the Western and Eastern blocs, as well as stabilizing relations between them. This volume's interdisciplinary approach addresses important intersections between history, politics, and culture, offering an important new appraisal of the German experiences of the Cold War.
