L'ombre du mystère-Nora Roberts 2014-08-27

Avec un art consommé du suspense, Nora Roberts nous fait pénétrer dans l'ombre du mystère avec deux romans à couper le souffle... En s'installant à Morganville, dans le Maryland, Maggie Fitzgerald pense avoir trouvé le havre de paix dont elle rêve. Aussi est-elle sous le choc quand des travaux dans son jardin mettent au jour le cadavre de l'ancien propriétaire des lieux, mystérieusement disparu dix ans plus tôt. Déstabilisée, Maggie se résout à plonger dans un passé trouble et violent. Un passé qui pourrait la mettre elle aussi en danger, comme semble le penser Cliff Delaney, l'architecte paysagiste qui a découvert le corps - un homme aussi mystérieux qu'envoûtant qui lui propose son aide pour découvrir la vérité. Mais peut-elle lui faire confiance, alors qu'il garde un silence obstiné sur les secrets des habitants de Morganville, et sur sa propre vie ? Séjourner au château des Fairchild, c'est pour Adam Haines le moyen de

mener une enquête discrète sur le maître des lieux, un peintre célèbre soupçonné d'être un faussaire. Mais en aucun cas il ne s'attendait à tomber sous le charme de la fille du peintre, Kirby, une artiste talentueuse, belle et flamboyante... Très vite, Adam se retrouve dans une situation impossible : non seulement à cause des indices inquiétants qui incriminent Philip Fairchild, son hôte, mais aussi parce que l'aventure sans lendemain qu'il imaginait avec Kirby se transforme rapidement en une véritable passion. Une passion qui pourrait bien compromettre son enquête et attirer sur lui le souffle du danger...

The False Traitor-Albert Raimundo Braz

2003-01-01 The nineteenth-century Métis politician and mystic Louis Riel has emerged as one of the most popular - and elusive - figures in Canadian culture. Since his hanging for treason in 1885, the self-declared David of the New World has been depicted variously as a traitor to Confederation; a French-Canadian and Catholic martyr; a bloodthirsty rebel; a pan-American liberator; a pawn of shadowy white forces; a Prairie political maverick; a First Nations hero; an alienated intellectual; a victim of Western industrial progress; and even a Father of Confederation. Albert Braz synthesizes the available material by and about Riel, including

film, sculpture, and cartoons, as well as literature in French and English, and analyzes how an historical figure could be portrayed in such contradictory ways. In light of the fact that most aesthetic representations of Riel bear little resemblance not only to one another but also to their purported model, Braz suggests that they reveal less about Riel than they do about their authors and the society to which they belong. The most comprehensive treatment of the representations of Louis Riel in Canadian literature, The False Traitor will be a seminal work in the study of this popular Canadian figure.

Colouring Textiles-A. Nieto-Galan 2013-04-17

Colouring Textiles is an attempt to provide a new cross-cultural comparative approach to the art of dyeing and printing with natural dyestuffs in the eighteenth and nineteenth centuries. Divided into thematic chapters, it uncovers new data from the vast historical heritage of natural dyestuffs from a range of European cities, to present new historiographic insights for the understanding of this technology. Through a sort of anatomic dissection, the book explores the study and cultivation of dye-plants in botanical gardens and plantations, and the tacit values hidden in dyeing

workshops, factories, laboratories, or national and international exhibitions. It metaphorically submits the natural dyestuffs of the eighteenth and nineteenth centuries to a series of systematic historical tests, and traces back the circulation of those sources of colours through colonial spaces, dye works, cross-cultural networks, schools of artistic design, and science-based industries for the making of synthetic colorants. Colouring Textiles contributes to a better understanding of the role of natural dyestuffs in the processes of industrialization in Western Europe. Audience: Historians of science and technology, historians of chemistry, philosophers, economic historians, professional chemists, arts and crafts historians, and cultural anthropologists.

Pandemic-Robin Cook 2018-12-11 New York Times-bestselling author Robin Cook takes on the cutting-edge world of gene-modification in this pulse-pounding new medical thriller. When an unidentified, seemingly healthy young woman collapses suddenly on the New York City subway and dies upon reaching the hospital, her case is an eerie reminder for veteran medical examiner

Jack Stapleton of the 1918 flu pandemic. Fearful of a repeat on the one hundredth anniversary of the nightmarish contagion, Jack autopsies the woman within hours of her demise and discovers some striking anomalies: first, that she has had a heart transplant, and second, that, against all odds, her DNA matches that of the transplanted heart. Although the facts don't add up to influenza, Jack must race against the clock to identify the woman and determine what kind of virus could wreak such havoc--a task made more urgent when two other victims succumb to a similar rapid death. But nothing makes sense until his investigation leads him into the fascinating realm of CRISPR/CAS9, a gene-editing biotechnology that's captured the imagination of the medical community. . . and the attention of its most unethical members. Drawn into the dark underbelly of the organ transplant market, Jack will come face-to-face with a megalomaniacal businessman willing to risk human lives in order to conquer a lucrative new frontier in medicine--and if Jack's not careful, the next life lost might be his own.

Africa's Future, Africa's Challenge-Marito H. Garcia 2008-01-18 Early childhood, from birth through school entry, was largely invisible worldwide as a policy concern for much of the twentieth century. Children, in the eyes of most countries, were 'appendages' of their parents or simply embedded in the larger family structure. The child did not emerge as a separate social entity until school age (typically six or seven). 'Africa's Future, Africa's Challenge: Early Childhood Care and Development in Sub-Saharan Africa' focuses on the 130 million children south of the Sahel in this 0-6 age group. This book, the

first of its kind, presents a balanced collection of articles written by African and non-African authors ranging from field practitioners to academicians and from members of government organizations to those of nongovernmental and local organizations. 'Africa's Future, Africa's Challenge' compiles the latest data and viewpoints on the state of Sub-Saharan Africa's children. Topics covered include the rationale for investing in young children, policy trends in early childhood development (ECD), historical perspectives of ECD in Sub-Saharan Africa including indigenous approaches, new threats from HIV/AIDS, and the importance of fathers in children's lives. The book also addresses policy development and ECD implementation issues; presents the ECD programming experience in several countries, highlighting best practices and challenges; and evaluates the impact of ECD programs in a number of countries.

The Pursuit of Happiness-Douglas Kennedy 2010-06-15 Manhattan, Thanksgiving eve, 1945. The war is over, and Eric Smythe's party was in full swing. All his clever Greenwich Village friends were there. So too was his sister Sara, an independent, outspoken young woman, starting to make her way in the big city. And then in walked Jack Malone, a U.S. Army journalist just back from a defeated Germany, a man whose world view was vastly different than that of Eric and his friends. This chance meeting between Sara and Jack and the choices they both made in the wake of it would eventually have profound consequences, both for themselves and for those closest to them for decades afterwards. Set amidst the dynamic optimism of postwar New

York and the subsequent nightmare of the McCarthy era, *The Pursuit of Happiness* is a great, tragic love story; a tale of divided loyalties, decisive moral choices and the random workings of destiny.
