

who would stop them were silenced or excommunicated. Had it happened in the corporate world, the CEOs and executives responsible for hijacking a corporation and robbing its investors would have been fired, if not prosecuted in a court of law. Never before has this shocking story been told in such riveting detail. Drawing upon official reports, internal memos, court depositions and personal interviews, Stephen Flurry exposes the depth of corruption and deceit that was "Tkachism" - the administration of Joseph Tkach, who succeeded Mr. Armstrong as pastor general of the Worldwide Church of God. In this book you will learn: *How Tkach's men altered doctrines under Mr. Armstrong's nose even before he died. *How the Tkach transformation was driven from the start by an agenda that even shocked most of the top ministers. *How early on, Tkachism brazenly denied its radical changes before the church members. *How Tkachism slashed media operations under the pretense of "wise stewardship"--while income soared at a record \$1 billion in five years. *How Tkachism shamefully forced out the very members whose contributions had built the multi-million dollar empire. *How Tkach's men told church members the message of Mr. Armstrong's magnum opus, Mystery of the Ages, was still official, while they secretly trashed 120,000 copies of the book. *How Tkach Jr. considered it his "Christian duty" to stamp out Mr. Armstrong's writings. *How Tkach Jr. nearly achieved that goal in a six-year legal battle, but then, for fear of being exposed, surrendered. *How the marvelous wonder of Mr. Armstrong's work is being raised from the ruins. Worldwide Church of God leaders today present themselves to the mainstream evangelical world as a band of courageous truth-lovers who sacrificed everything to follow Jesus Christ. The stubborn facts of what they did, however, tell a far more sinister story - a story they have done their utmost to keep buried. This book exhumes those facts and exposes them to the furious light of day, as they should have been all along, for your scrutiny. Sounder-William H. Armstrong 2011-07-12 This powerful Newbery-winning classic tells the story of the great coon dog Sounder and his family. An African American boy and his family rarely have enough to eat. Each night, the boy's father takes their dog, Sounder, out to look for food. The man grows more desperate by the day. When food suddenly appears on the table one morning, it seems like a blessing. But the sheriff and his deputies are not far behind. The ever-loyal Sounder remains determined to help the family he loves as hard times bear down. This classic novel shows the courage, love, and faith that bind a family together despite the racism and inhumanity they face in the nineteenth-century deep South. Readers who enjoy timeless dog stories such as Old Yeller and Where the Red Fern Grows will find much to love in Sounder, even as they read through tears at times.

From Gutenberg to the Internet-Jeremy M. Norman 2005 From Gutenberg to the Internet presents 63 original readings from the history of computing, networking, and telecommunications arranged thematically by chapters. Most of the readings record basic discoveries from the 1830s through the 1960s that laid the foundation of the world of digital information in which we live. These readings, some of which are illustrated, trace historic steps from the early nineteenth century development of telegraph systems--the first data networks--through the development of the earliest general-purpose programmable computers and the earliest software, to the foundation in 1969 of ARPANET, the first national computer network that eventually became the Internet. The readings will allow you to review early developments and ideas in the history of information technology that eventually led to the convergence of computing, data networking, and telecommunications in the Internet. The editor has written a lengthy illustrated historical introduction concerning the impact of the Internet on book culture. It compares and contrasts the transition from manuscript to print initiated by Gutenberg's invention of printing by moveable type in the 15th century with the transition that began in the mid-19th century from a print-centric world to the present world in which printing co-exists with various electronic media that converged to form the Internet. He also provided a comprehensive and wide-ranging annotated timeline covering selected developments in the history of information technology from the year 100 up to 2004, and supplied introductory notes to each reading.

Some introductory notes contain supplementary illustrations.

Graphic Design Theory-Helen Armstrong 2012-08-10 Graphic Design Theory is organized in three sections: "Creating the Field" traces the evolution of graphic design over the course of the early 1900s, including influential avant-garde ideas of futurism, constructivism, and the Bauhaus; "Building on Success" covers the mid- to late twentieth century and considers the International Style, modernism, and postmodernism; and "Mapping the Future" opens at the end of the last century and includes current discussions on legibility, social responsibility, and new media. Striking color images illustrate each of the movements discussed and demonstrate the ongoing relationship between theory and practice. A brief commentary prefaces each text, providing a cultural and historical framework through which the work can be evaluated. Authors include such influential designers as Herbert Bayer, L'zlo Moholy-Nagy, Karl Gerstner, Katherine McCoy, Michael Rock, Lev Manovich, Ellen Lupton, and Lorraine Wild. Additional features include a timeline, glossary, and bibliography for further reading. A must-have survey for graduate and undergraduate courses in design history, theory, and contemporary issues, Graphic Design Theory invites designers and interested readers of all levels to plunge into the world of design discourse. A History of God-Karen Armstrong 2011-08-10 Why does God exist? How have the three dominant monotheistic religions—Judaism, Christianity, and Islam—shaped and altered the conception of God? How have these religions influenced each other? In this stunningly intelligent book, Karen Armstrong, one of Britain's foremost commentators on religious affairs, traces the history of how men and women have perceived and experienced God, from the time of Abraham to the present. The epic story begins with the Jews' gradual transformation of pagan idol worship in Babylon into true monotheism—a concept previously unknown in the world. Christianity and Islam both rose on the foundation of this revolutionary idea, but these religions refashioned 'the One God' to suit the social and political needs of their followers. From classical philosophy and medieval mysticism to the Reformation, Karen Armstrong performs the near miracle of distilling the intellectual history of monotheism into one superbly readable volume, destined to take its place as a classic. Praise for History of God "An admirable and impressive work of synthesis that will give insight and satisfaction to thousands of lay readers."—The Washington Post Book World "A brilliantly lucid, splendidly readable book. [Karen] Armstrong has a dazzling ability: she can take a long and complex subject and reduce it to the fundamentals, without oversimplifying."—The Sunday Times (London) "Absorbing . . . A lode of learning."—Time "The most fascinating and learned study of the biggest wild goose chase in history—the quest for God. Karen Armstrong is a genius."—A.N. Wilson, author of Jesus: A Life The Kingdom of the Cults-Walter Martin 2003-10-01 Newly updated, this definitive reference work on major cult systems is the gold standard text on cults with nearly a million copies sold.
