Il cattivo-Celia Aaron 2020-06-02 Mi chiamo Sebastian Lindstrom, e sono il cattivo della storia. Ho deciso di mettermi a nudo, di dire la verità per una volta nella mia ingannevole vita, non importa quanto possa essere oscura. E vi assicuro che è così oscura, che vi ritroverete a vagare per i recessi bui della mia mente, in cerca della maniglia della porta che non c'è. Non scambiatela per una confessione. Non sono in cerca di perdono, e in ogni caso non lo accetterei. I miei peccati mi appartengono. Mi tengono compagnia. Si tratta della vera storia di come l'ho trovata, rapita e poi persa. Era una dolce donzella e aveva già il suo principe azzurro. Ma ogni fiaba ha un cattivo, qualcuno appostato nell'ombra pronto a mandare tutto all'aria. Un mascalzone disposto a mettere il mondo a ferro e fuoco pur di

Story and Simulations for Serious Games-Nick Iuppa 2012-07-26 How to create a simulation where participants have a sense of freedom and personal control while still maintaining the structure necessary for an effective story is a difficult task indeed. This book examines how to create an engaging, effective story (necessary to teach participants), while relating

practical considerations of building a simulation. It also looks at stories as classic ways of teaching and gathering knowledge and considers other theories of interactive narrative design such as synthetic story creation and management and participant-generated story experiences. It also discusses enabling technologies in artificial intelligence, synthetic characters design and development, speech recognition technology, 3D modelling, and the future of story-driven games. Story Driven Simulations reviews the existing efforts in this field as well as focusing on the recent efforts of Paramount Pictures and The Institute for Creative Technologies at the University of Southern California, where this expert author team created successful simulations for the U.S. Army, Department of Defense, as well as other educational simulations.

The Man Who Lived by Night-David Handler 2012-06-26 The ghostwriting sleuth discovers a rock star's deadly side in "one of my all-time favorite series" (Harlan Coben). From the first time they played on the Ed Sullivan Show, Us was the hottest band on earth. For more than a decade, the group tore through the charts and indulged in an endless cycle of drugs, women, and violence, until two musicians died—the drummer by drugs, the guitarist by a crazed gunman. Once the band was finished, lead singer Tristram Scarr retreated to the English countryside, hiding from the world until the day he hires an American to ghostwrite his memoirs. Stewart Hoag arrives in London in the company of Lulu, his ever-hungry basset hound, to find the rock idol of his youth reduced to a wheezing, frail fortysomething. The first thing Starr tells him is that their drummer never overdosed—he was murdered. And as their interviews progress, Hoagy learns that working for a rock star is almost as dangerous as being one.

Anorexia and Mimetic Desire-René Girard 2013-08-01 René Girard shows that all desires are contagious—and the desire to be thin is no exception. In this compelling new book, Girard ties the anorexia epidemic to what he calls mimetic desire: a desire imitated from a model. Girard has long argued that, far from being spontaneous, our most intimate desires are copied from what we see around us. In a culture obsessed with thinness, the rise of eating disorders should be no surprise. When everyone is trying to slim down, Girard asks, how can we convince anorexic patients to have a healthy outlook on eating? Mixing theoretical sophistication with irreverent

common sense, Girard denounces a “culture of anorexia” and takes apart the competitive impulse that fuels the game of conspicuous non-consumption. He shows that showing off a slim physique is not enough—the real aim is to be skinnier than one’s rivals. In the race to lose the most weight, the winners are bound to be thinner and thinner. Taken to extremes, this tendency to escalation can only lead to tragic results. Featuring a foreword by neuropsychiatrist Jean-Michel Oughourlian and an introductory essay by anthropologist Mark R. Anspach, the volume concludes with an illuminating conversation between René Girard, Mark R. Anspach, and Laurence Tacou.

Collected Short Stories I-Gaskell E.C. 1961 Elizabeth Cleghorn Gaskell was an English novelist, biographer, and short story writer. Her novels offer a detailed portrait of the lives of many strata of Victorian society, including the very poor, and are of interest to social historians as well as lovers of literature. Collected Short Stories I introduces us to a set of characters who take turns to recount stories to one another during their weekly soiree. An Accursed Race is actually an essay about a persecuted minority group, the Cagots in Western France. The Doom of the Griffiths is a gothic short story about a cursed family and set in Wales.

The Peruvian Notebooks-Braulio Muñoz 2006 Although Antonio Alday Gutierrez dreams of great success when coming to America, he accepts work as a security guard at a shopping mall and lives in a modest apartment. To soften the bleak reality of his disappointing life, Antonio invents a privileged Peruvian past to mislead his new American friends. He also sends letters to his family in Peru boasting of a thriving business and large home. This double deception leads Antonio to commit an act of desperation to conceal the drab reality of his new American life. Told in a series of flashbacks, letters, and excerpts from notebooks, this epistolary novel takes readers on a cultural and spiritual journey, touching on themes of self-identity, memory, border crossing, and death. Muñoz layers the narrative with various voices, times, and places to offer a profound vision of the immigrant experience. One of the first immigrant stories told from the Peruvian point of view, this novel provides a portrait of ambition, self-deception, and acceptance.

Women With Men—Richard Ford 2012-06-04 The landscape of Women with Men ranges from the northern plains of Montana to the streets of Paris and the suburbs of Chicago. The tragedies that stalk the characters are unfolded with an indelible wit and clarity. So merciless is Ford's lingering gaze upon human, mostly male, weakness, so understanding his eye for the unravelling threads of human love, that this collection of novellas seems only to broaden the reputation and the following of one of the outstanding writers of our time.

Altered States—Anita Brookner 2012-08-01 Standing on a railway platform in a Swiss resort town, sensibly clad in his Burberry raincoat and walking shoes, a man thinks he may be looking at the woman for whom he ruined his life many years earlier. Alan Sherwood, a quiet English solicitor, remembers back to a time when he stepped briefly out of character to indulge in a liaison with Sarah Miller, an intriguing but heartless distant relative—only to find himself in a series of absurd situations that culminated in his marriage to Sarah's clinging, childlike friend Angela. With her compassionate portrait of a man who has paid a terrible price for his folly, Anita Brookner gives us a novel that is at once harrowing and humane. In the traditions of Henry James and Thomas Mann, Altered States is a beautifully rendered tale of loneliness, guilt, and erotic obsession.
