Terracide-Hubert Reeves 2009 With China and India poised to become the world's next great economic engines, they are fast becoming the world's heaviest polluters. One of the world's greatest astrophysicists, Hubert Reeves has turned his attention to the state of planet Earth. The facts and figures he has studied lead him to believe that the human race is on the brink of making the world uninhabitable. With Terracide, Hubert Reeves joins the ranks of scientists that include David Suzuki and James Hansen (of NASA) demanding that we pay closer attention to our consumption of non-renewable resources and the pollution and global warming they cause. Drawing on cogent scientific data, Reeves lays out a prognosis that is alarming. Terracide is not only a plea for the Earth, it is a blueprint for a race against time. The White House has attempted to silence James Hansen, who on March 19 of this year went public on CBS' 60 Minutes, with this statement: "In my more than three decades in the government I've never witnessed such restrictions on the ability of scientists to communicate with the public." What Hansen, Suzuki, and now Hubert Reeves have to say about the fate of the Earth is a message we all need to read and understand. Livres de France- 2008

Intelligence Reframed-Howard E. Gardner 2000-09-18 Harvard psychologist Howard Gardner has been acclaimed as the most influential educational theorist since John Dewey. His ideas about intelligence and creativity - explicated in such bestselling books as Frames of Mind and Multiple Intelligences (over 200,000 copies in print combined) - have revolutionized our thinking.In his groundbreaking 1983 book Frames of Mind, Howard Gardner first introduced the theory of multiple intelligences, which posits that intelligence is more than a single property of the human mind. That theory has become widely accepted as one of the seminal ideas of the twentieth century and continues to attract attention all over the world.Now in Intelligence Reframed, Gardner provides a much-needed report on the theory, its evolution and revisions. He offers practical guidance on the educational uses of the theory and responds to the critiques leveled against him. He also introduces two new intelligences (existential intelligence and naturalist intelligence) and argues that the concept of intelligence should be broadened, but not so absurdly that it includes every human virtue and value. Ultimately, argues Gardner, possessing a basic set of seven or eight intelligences is not only a unique trademark of the human species, but also perhaps even a working definition of the species. Gardner also offers provocative ideas about creativity, leadership, and moral excellence, and speculates about the relationship between multiple intelligences and the world of work in the future.

Peace of Mind-Seneca 2016-09-13 Peace of Mind (De Tranquillitate Animi) is a dialogue written by Seneca the Younger during the years 49 to 62 A.D. It concerns the state of mind of Seneca's friend Annaeus Serenus, and how to cure Serenus of anxiety, worry and disgust with life. For the modern reader, this short, powerful work offers insight into how to think like a Stoic. It is a road-map for guiding the mind to, in Seneca's words, "always pursue a steady, unruffled course... be pleased with itself, and look with pleasure upon its surroundings, and experience no interruption of this joy, but abide in a peaceful condition without being ever either elated or depressed."

Lights and Shadows of Spiritualism-Daniel Dunglas Home 1877 Daniel Dunglas Home (1833-1886) was a charismatic medium whose seances were attended by European royalty and eminent Victorians like Elizabeth Barrett Browning. Thrown out by his aunt because of the paranormal events which plagued him since childhood, Home became a 'professional house guest' and medium at the age of 17. During seances he purportedly levitated, handled hot coals and channelled the voices of the dead. This volume, first published in 1877, is an evocative examination of spiritualism which explores the history of the practice via the Greeks, the Romans, and Joan of Arc. Simultaneously attacking fraudulent mediums while celebrating 'true' spiritualist practitioners, this fascinating work details both the criticism and support received by Home and features reproductions of numerous fan letters. Although colourful and impassioned, Home's polemic is written in an amiable style and provides fascinating insights into the life and work of the self-proclaimed 'Grandfather of English Spiritualism'.

Archives for the 21st Century-Great Britain: Ministry of Justice 2009-11-24 Publicly funded archive services have a vital role within the communities they serve to contribute to local democracy, strong and cohesive communities, social policy, education, research, history and culture. This document sets out the strategic vision for the sustainable development of a vigorous, publicly funded archive sector across England and Wales. It replaces the "Government policy on archives" that was issued by the Lord Chancellor in 1999 (Cm. 4516, ISBN 9780101451628)and focuses on actions for publicly funded archives while acknowledging that private archives remain vital to the archival health of the nation. Section 1 outlines how the landscape in which archive services operate has changed: large organisations now keep most, if not all, of their information in electronic form. Section 2 provides a vision of the true potential of publicly funded archives. Section 3 outlines the challenges facing archive services in the delivery of their core task of preserving authentic information and helping people to access and understand the past. Section 4 sets out five key recommendations: develop bigger and better services in partnership; strengthened leadership and a responsive, skilled workforce; co-ordinated response to the growing challenge of managing digital information; comprehensive online access for archive discovery through catalogues and to digitised archive content by citizens at a time and place that suits them; active participation in cultural and learning partnerships promoting a sense of identity and place within the community. Section 5 highlights the need for concerted action by all parties connected with the archive sector to ensure a sustainable future.

Astrology and Sex-Vivian E. Robson 2005-03 Synastry is the branch of astrology that tells us how we relate to other people. How Joe relates to Mary & what Mary may think of that. In this complete, classic guide to astrology & relationships, Robson goes far beyond the usual "his planets vs: her planets." He studies the overall weight of the two charts, the fertility of the inner planets, the condition of the 7th house. He compares her-planets-to- his-planets as well as his-houses-to-her-houses. Robson considers how strongly the individual wants relationships - and how many, whether he/she will marry early or late - or not at all, the likelihood of children, the possibility of divorce. He gives rules for wedding dates. In an extraordinary appendix, he lists some 266 classified rules & aphorisms, culled from many ancient sources. This is perhaps the finest book ever written on astrology & relationships. About the author: Vivian Erwood Robson lived from 1890 to 1942. By trade he was a librarian. Like many librarians he had a natural bent for research, and, in his particular case, astrology. He studied ancient astrologers closely, including Ptolemy & William Lilly. His books on electional astrology, fixed stars, and relationships, are 20th century classics.

Daddy King-Martin Luther King Sr. 2017-01-10 From coming of age under poverty and the looming threat of racial violence to preaching from the Ebenezer pulpit for forty years, King, Sr., candidly reveals his life inside the civil rights movement, illustrating the profound influence he had on his son. Born in 1899 to a family of sharecroppers in Stockbridge, Georgia, Martin Luther King, Sr., came of age under the looming threat of violence at the hands of white landowners. Growing up, he witnessed his family being crushed by the weight of poverty and racism, and escaped to Atlanta to answer the calling to become a preacher. Before engaging in acts of political dissent or preaching at Ebenezer Baptist Church, where he would remain for more than four decades, King, Sr., earned high school and college diplomas while working double shifts as a truck driver—and he won the heart of his future wife, Alberta “Bunch” Williams. King, Sr., recalls the struggles and joys of his journey; the pain of leaving his parents and seven siblings on the family farm; the triumph of winning voting rights for blacks in Atlanta; and the feelings of fatherly pride and anxiety as he watched his son put his life in danger at the forefront of the civil rights movement. Originally published in 1980, Daddy King is an unexpected and poignant memoir. “There are two men I am supposed to hate. One is a white man, the other is black, and both are serving time for having committed murder. James Earl Ray is a prisoner in Tennessee, charged with killing my son. Marcus Chenault was institutionalized as deranged after shooting my wife to death. I don’t hate either one. There is no time for that, and no reason, either. Nothing that a man does takes him lower than when he allows himself to fall so far as to hate anyone.” —The Reverend Martin Luther King, Sr., in Daddy King Oil, War, and Anglo-American Relations-Catherine E. Jayne 2001 The Mexican expropriation of British and American properties in March 1938 marked the first time any oil-producing country successfully stood up to foreign companies who claimed to own oil properties in that country and who had the support of their respective governments. Although both Washington and London wanted a return to the pre-expropriation status quo, Washington was unwilling to work with London to achieve this goal, and Washington's attitude paralleled its reaction to British efforts to get U.S. support on certain defense issues during this critical period. The resulting Anglo-American strife over how to handle Mexico was also consistent with Anglo-American commercial competition and the oil rivalry in Mexico early in the century.
