Autoestima para principiantes-Amado Ramírez Villafañez 2013-11-28 En este libro de madurez el psicólogo, terapeuta y escritor vallisoletano Amado Ramírez sintetiza y compendia bajo el complejo y poliédrico concepto de autoestima parte de sus ideas sobre las, a veces poco claras y desequilibradas, relaciones entre el individuo y la sociedad. Con una positiva y generosa visión del ser humano y de su capacidad para hacer "un arte del

convivir", se nos desvelan las herramientas prácticas para ampliar nuestra conciencia y fortalecer una autoestima movilizadora e independiente, que nos permita integrar sin conflictos nuestra triple vertiente animal, social y espiritual en una vida plena. No se encuentra en estas páginas un mero análisis teórico sobre las múltiples facetas de la autoestima, sino un relato preciso y pedagógico que va más allá de los lugares comunes que suelen asociar esta cualidad del carácter al éxito y al

reconocimiento social.
Manifiesta el autor su voluntad de azuzar las conciencias y ayudar en la resolución de conflictos personales con origen en la inseguridad y el miedo de una confianza herida.

Grace Without God-Katherine Ozment 2016-06-21 Meet "the Nones"—In this thought-provoking exploration of secular America, celebrated journalist Katherine Ozment takes readers on a quest to understand the trends and ramifications of a nation in flight from organized religion. Studies show that religion makes us happier, healthier and more giving, connecting us to our past and creating tight communal bonds. Most Americans are raised in a religious tradition, but in recent decades many have begun to leave religion, and with it their ancient rituals, mythic narratives, and sense of belonging. So how do the nonreligious fill the need for ritual, story, community, and, above all, purpose and meaning without the one-stop shop of religion? What do they do with the space left after religion? With Nones swelling to one-fourth of American adults, and more than one-

third of those under thirty, these questions have never been more urgent. Writer, journalist, and secular mother of three Katherine Ozment came face-to-face with the fundamental issue of the Nones when her son asked her the simplest of questions: "what are we?" Unsettled by her reply—"Nothing"—she set out on a journey to find a better answer. She traversed the frontier of American secular life, sought guidance in science and the humanities, talked with noted scholars, and wrestled with her own family's attempts to find meaning and connection after religion. Insightful, surprising, and compelling, Grace Without God is both a personal and critical exploration of the many ways nonreligious Americans create their own meaning and purpose in an increasingly secular age. organization called The Brotherhood, dedicated to the destruction of the Party. Together with his beloved Julia, he hazards his life in a deadly match against the powers that be. Lionel Trilling said of Orwell's masterpiece, "1984 is a profound, terrifying, and wholly fascinating book. It is a fantasy of the political future, and like any such fantasy, serves its author as a magnifying device for an examination of the present." Though the year 1984 now exists in the past, Orwell's novel remains an urgent call for the individual willing to speak truth to power.

The Blue Sky-Galsan Tschinag 2020-06-09 In the high Altai Mountains of northern Mongolia, a young shepherd boy comes of age, tending his family's flocks on the mountain steppes. Knowing little of the world beyond the surrounding peaks, his nomadic way of life is disrupted by modernity. This confrontation comes in stages. First, his older siblings leave the family yurt to attend a distant boarding school. Then the boy's grandmother dies, and with her his connection to

the old ways. But perhaps the greatest tragedy strikes when his dog, Arsylang—"all that was left to me"—ingests poison set out by the boy's father to protect his herd from wolves. "Why is it so?" Dshurukawaa cries out in despair to the Heavenly Blue Sky, to be answered only by the wind. Rooted in the oral traditions of the Tuvan people, The Blue Sky weaves the timeless story of a boy poised on the cusp of manhood with the story of a people on the threshold.

The Whispering of Ghosts-Boris Cyrulnik 2010 One out of every two people will experience trauma, says psychiatrist Boris Cyrulnik, and one in ten will remain a

prisoner of that suffering. Why are some children permanently damaged by difficult childhoods, while others grow up into secure, creative, loving adults? This book, based on Dr. Cyrulnik's broad experience with victims of childhood distress, offers a message of hope for everyone concerned about the impact of deprivation and such traumatic events as separation, emotional or sexual abuse, and violence in the environment. The ghosts of the past keep on whispering to the child within the adult. Through dozens of moving, vivid examples, Dr. Cyrulnik describes the ingredients of resilience, the ability to heal the wounded self and move on, to make sense of what happened back then and form new emotional and social ties. Affection is such a vital need, he writes, that those who were deprived of it will attach themselves intensely to anything that rekindles a spark of life, whatever the cost. From the earliest parent-child bonding to the sexual turbulence of the teenage years, this book shows what makes for success or failure in the struggle to

gain freedom from early pain. *Emprender con responsabilidad*-Norbert Bilbeny 2012 Ni la acumulación de deuda, ni la construcción de viviendas ni el consumo ilimitado de productos y recursos nos sacarán de la profunda crisis económica, energética y medioambiental que vivimos. El futuro pertenece a las sociedades que faciliten el despliegue de la capacidad emprendedora de sus ciudadanos. Bajo esta premisa, Ángel Pes y Norbert Bilbeny se adentran en el papel clave de la responsabilidad social de las empresas y, desde una visión eminentemente práctica, defienden la necesidad de promover la actividad emprendedora sin descuidar la distribución equitativa de los beneficios del desarrollo económico y su carácter sostenible. Para ello, explican cómo dar forma a las exigencias de una economía sostenible a través de numerosos ejemplos de empresas que han sabido ver las ventajas que ofrece la responsabilidad corporativa. Ser empresario responsable no solo es una elección: es

una necesidad para construir el futuro.

Punkzilla-Adam Rapp 2010-03-16 An award-winning writer and playwright hits the open road for a searing novel-in-letters about a street kid on a highstakes trek across America. For a runaway boy who goes by the name "Punkzilla," kicking a meth habit and a life of petty crime in Portland, Oregon, is a

prelude to a mission: reconnecting with his older brother, a gay man dying of cancer in Memphis. Against a backdrop of seedy motels, dicey bus stations, and hitched rides, the desperate fourteen-year-old meets a colorful, sometimes dangerous cast of characters. And in letters to his sibling, he catalogs them all -- from an abusive stranger and a ghostly girl to a kind transsexual and an old woman with an oozing eye. The language is raw and revealing, crackling with visceral details and dark humor, yet with each interstate exit Punkzilla's journey grows more urgent: will he make it to Tennessee in time? This daring novel offers a narrative worthy of Kerouac and a keen insight into the power of chance encounters.

known contemporary of the expressionist movement, it captures Expressionism at the time of its impending conclusion—as an intersection of world view, resoluteness of form, and medial transition. Though one of the most frequently-cited works of Weimar culture, Kurtz's groundbreaking work, which is on a par with Siegfried Kracauer's *From Caligari to Hitler* and Lotte Eisner's *The Haunted Screen*, has never been published in English. Its relevance and historical contexts are analyzed in a concise afterword by the Swiss scholars Christian Kiening and Ulrich Johannes Beil.

Educational Algebra-Eugenio Filloy 2007-10-12 This book takes a theoretical perspective on the study of school algebra, in which both semiotics and history occur. The Methodological design allows for the interpretation of specific phenomena and the inclusion of evidence not addressed in more general treatments. The book gives priority to "meaning in use" over "formal meaning". These approaches and others of similar nature lead to a focus on competence rather than a user's activity with mathematical language.
