Automotive Cheap Tricks & Special F/X Ii-Craig Fraser 2010-02-15 "The New Gold Standard in Automotive Step-By-Step Books Automotive Cheap Tricks & Special F/X II, the ultimate book of automotive custom painting has been released. Automotive Cheap Tricks & Special F/X II is a compilation of step-by-step instruction by Craig Fraser, one of the greatest forces behind the popularization of automotive custom painting. In fact, Special F/X II far exceeds its predecessor, F/X I, in superior design, nearly double the content (31 chapters, including 11 introductory sub-chapters and a comprehensive glossary), and size (212 pages). The subtitle, Learn How to Paint Cars, Trucks, Motorcycles, Musical Instruments, Surfboards, and R.C. Cars, really says it all, and lives up to its promise with some of the most cutting-edge work dissected for your reference and execution. This amazing visual smorgasbord tutors on how to achieve stunning graphics, special effects, murals, pinstriping, and more for beginners and pros. It's especially fascinating how perceptually difficult effects (bullet holes, fire, water droplets, old school flames, and tons more) and textures (alligator and dragon skin, chrome, cheetah fur, faux f/x, and many others) are so easily rendered with stencils, freehand shields, a variety of tapes, vinyl, and even a torch! It almost seems as if the author gave away too much, like a magician who would surprisingly reveal his secrets with impunity. Fraser was thoughtful enough to include enough editorial and instruction for newbies that includes a Back to Da' Basics chapter, and some great articles on self-promotion, the zen of custom painting, how to photograph your artwork (the importance of this cannot be overstated), the paint and equipment you'll need to get started, and the business of custom painting. In great, painstaking detail throughout, the book also addresses critically essential information on the proper sequences and steps to working with urethanes and clearcoats, among other things. The fact that improper methods can lead to catastrophic results on, say, a \$100,000 vehicle makes this book even more important. Chapters include: Flamin' Out A Killer Skull (skull and flames on a motorcycle tank), Steampunk Guitar (mind-blowing; gorgeous), Formula Drift (classic graphics with stunning results), Dragon Drums, Da Kine Surf-Tiki (Craig proves that you, too, can paint a bitchin' surfboard), Rice Fink (sure to be a big favorite), RC Car (you better read this before you attempt one), Donkey Frog, and Homage A Giger (H.R., that is). Automotive Cheap Tricks & Special F/X II is beautifully printed in full color and on heavy paper stock, and it's obvious that the publisher spared no expense in producing it. At \$34.95 this volume is a steal. And it is, without question, the new gold standard for books on automotive custom painting and will remain so for years to come."

Trick Mirror-Jia Tolentino 2020-07-14 NEW YORK TIMES BESTSELLER * "From The New Yorker's beloved cultural critic comes a bold, unflinching collection of essays about self-deception, examining everything from scammer culture to reality television."--Esquire "A whip-smart, challenging book."--Zadie Smith * "Jia Tolentino could be the Joan Didion of our time."--Vulture FINALIST FOR THE NATIONAL BOOK CRITICS CIRCLE'S JOHN LEONARD PRIZE FOR BEST FIRST BOOK * NAMED ONE OF TEN BEST BOOKS OF THE YEAR BY THE NEW YORK PUBLIC LIBRARY AND HARVARD CRIMSON AND ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review * Time * Chicago Tribune * The Washington Post * NPR * Variety * Esquire * Vox * Elle * Glamour * GO * Good Housekeeping * The Paris Review * Paste * Town & Country * BookPage * Kirkus Reviews * BookRiot * Shelf Awareness Jia Tolentino is a peerless voice of her generation, tackling the conflicts, contradictions, and sea changes that define us and our time. Now, in this dazzling collection of nine entirely original essays, written with a rare combination of give and sharpness, wit and fearlessness, she delves into the forces that warp our vision, demonstrating an unparalleled stylistic potency and critical dexterity. Trick Mirror is an enlightening, unforgettable trip through the river of self-delusion that surges just beneath the surface of our lives. This is a book about the incentives that shape us, and about how hard it is to see ourselves clearly through a culture that revolves around the self. In each essay, Tolentino writes about a cultural prism: the rise of the nightmare social internet; the advent of scamming as the definitive millennial ethos; the literary heroine's journey from brave to blank to bitter; the punitive dream of optimization, which insists that everything, including our bodies, should become more efficient and beautiful until we die. Gleaming with Tolentino's sense of humor and capacity to elucidate the impossibly complex in an instant, and marked by her desire to treat the reader with profound honesty, Trick Mirror is an instant classic of the worst decade yet. FINALIST FOR THE PEN/DIAMONSTEIN-SPIELVOGEL AWARD FOR THE ART OF THE ESSAY

Perfect for fans of Barbara Kingsolver and Karen Russell, Where the Crawdads Sing is at once an exquisite ode to the natural world, a heartbreaking coming-of-age story, and a surprising tale of possible murder. The Glass Castle-Jeanette Walls 2006-01-02 Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

The Ego Trick-Julian Baggini 2011-03-03 Are you still the person who lived fifteen, ten or five years ago? Fifteen, ten or five minutes ago? Can you plan for your retirement if the you of thirty years hence is in some sense a different person? What and who is the real you? Does it remain constant over time and place, or is it something much more fragmented and fluid? Is it known to you, or are you as much a mystery to yourself as others are to you?With his usual wit, infectious curiosity and bracing scepticism, Julian Baggini sets out to answer these fundamental and unsettling questions. His fascinating quest draws on the history of philosophy, but also anthropology, sociology, psychology and neurology; he talks to theologians, priests, allegedly reincarnated Lamas, and delves into real-life cases of lost memory, personality disorders and personal transformation; and, candidly and engagingly, he describes his own experiences. After reading The Ego Trick, you will never see yourself in the same way again.

Expanded Cinema-Gene Youngblood 2020-03-03 Fiftieth anniversary reissue of the founding media studies book that helped establish media art as a cultural category. First published in 1970, Gene Youngblood's influential Expanded Cinema was the first serious treatment of video, computers, and holography as cinematic technologies. Long considered the bible for media artists, Youngblood's insider account of 1960s counterculture and the birth of cybernetics remains a mainstay reference in today's hypermediated digital world. This fiftieth anniversary edition includes a new Introduction by the author that offers conceptual tools for understanding the sociocultural and sociopolitical realities of our present world. A unique eyewitness account of burgeoning experimental film and the birth of video art in the late 1960s, this far- ranging study traces the evolution of cinematic language to the end of fiction, drama, and realism. Vast in scope, its prescient formulations include "the paleocybernetic age," "intermedia," the "artist as design scientist," the "artist as ecologist," "synaesthetics and kinesthetics," and "the technosphere: man/machine symbiosis." Outstanding works are analyzed in detail. Methods of production are meticulously described, including interviews with artists and technologists of the period, such as Nam June Paik, Jordan Belson, Andy Warhol, Stan Brakhage, Carolee Schneemann, Stan VanDerBeek, Les Levine, and Frank Gillette. An inspiring Introduction by the celebrated polymath and designer R. Buckminster Fuller—a perfectly cut gem of countercultural thinking in itself—places Youngblood's radical observations in comprehensive perspective. Providing an unparalleled historical documentation, Expanded Cinema clarifies a chapter of countercultural history that is still not fully represented in the arthistorical record half a century later. The book will also inspire the current generation of artists working in ever-newer expansions of the cinematic environment and will prove invaluable to all who are concerned with the technologies that are reshaping the nature of human communication.

Dangerous Mystic-Joel F. Harrington 2018-03-20 Life and times of the 14th century German spiritual leader Meister Eckhart, whose theory of a personal path to the divine inspired thinkers from Jean Paul Sartre to Thomas Merton, and most recently, Eckhart Tolle Meister Eckhart was a medieval Christian mystic whose wisdom powerfully appeals to seekers seven centuries after his death. In the modern era, Eckhart's writings have struck a chord with thinkers as diverse as Heidegger, Merton, Sartre, John Paul II, and the current Dalai Lama. He is the inspiration for the bestselling New Age author Eckhart Tolle's pen name, and his fourteenth-century quotes have become an online sensation. Today a variety of Christians, as well as many Zen Buddhists, Sufi Muslims, Jewish Cabalists, and various spiritual seekers, all claim Eckhart as their own. Meister Eckhart preached a personal, internal path to God at a time when the Church could not have been more hierarchical and ritualistic. Then and now, Eckhart's revolutionary method of direct access to ultimate reality offers a profoundly subjective approach that is at once intuitive and pragmatic, philosophical yet non-rational, and, above all, universally accessible. This "dangerous mystic's" teachings challenge the very nature of religion, yet the man himself never directly challenged the Church. Eckhart was one of the most learned theologians of his day, but he was also a man of the world who had worked as an administrator for his religious order and taught for years at the University of Paris. His personal path from conventional friar to professor to lay preacher culminated in a spiritual philosophy that combined the teachings of an array of pagan and Christian writers, as well as Muslim and Jewish philosophers. His revolutionary decision to take his approach to the common people garnered him many enthusiastic followers as well as powerful enemies. After Eckhart's death and papal censure, many religious women and clerical supporters, known as the Friends of God, kept his legacy alive through the centuries, albeit underground until the master's dramatic rediscovery by modern Protestants and Catholics. Dangerous Mystic grounds Meister Eckhart in a world that is simultaneously familiar and alien. In the midst of this medieval society, a few decades before the Black Death, Eckhart boldly preached to captivated crowds a timeless method, a "wayless way," of directly experiencing the divine.

Rewire Your Brain-John B. Arden, PhD 2010-03-22 How to rewire your brain to improve virtually every aspect of your life-based on the latest research in neuroscience and psychology on neuroplasticity and evidence-based practices Not long ago, it was thought that the brain you were born with was the brain you would die with, and that the brain cells you had at birth were the most you would ever possess. Your brain was thought to be "hardwired" to function in predetermined ways. It turns out that's not true. Your brain is not hardwired, it's "softwired" by experience. This book shows you how you can rewire parts of the brain to feel more positive about your life, remain calm during stressful times, and improve your social relationships. Written by a leader in the field of Brain-Based Therapy, it teaches you how to activate the parts of your brain that have been underactivated and calm down those areas that have been hyperactivated so that you feel positive about your life and remain calm during stressful times. You will also learn to improve your memory, boost your mood, have better relationships, and get a good night sleep. Reveals how cutting-edge developments in neuroscience, and evidence-based practices can be used to improve your everyday life Other titles by Dr. Arden include: Brain-Based Therapy-Adult, Brain-Based Therapy-Child, Improving Your Memory For Dummies and Heal Your Anxiety Workbook Dr. Arden is a leader in integrating the new developments in neuroscience with psychotherapy and Director of Training in Mental Health for Kaiser Permanente for the Northern California Region Explaining exciting new developments in neuroscience and their applications to daily living, Rewire Your Brain will guide you through the process of changing your brain so you can change your life and be free of self-imposed limitations.

Double Talkin' Jive-Matt Sorum 2020-04-07 Cocaine smuggling, shoot-outs, and never-ending decadent parties: Matt Sorum's Double Talkin' Jive could almost be described as the autobiographical equivalent of the film Blow. But rather than becoming a premier drug smuggler, Matt Sorum becomes a world-famous drummer in Guns N' Roses, Velvet Revolver, and the Cult. Sorum drops out of high school to become a drummer, but turns to selling pot to support himself, and later smuggling large quantities of cocaine. When Sorum is given the chance to play in the Cult, he is finally able to make a living as a drummer. The very next year Slash and Duff McKagan recruit Matt to join Guns N' Roses, and with that, Matt's life is transformed. When Axl Rose starts turning up at the recording studio more and more sporadically, sometimes not at all, Matt reckons in keen detail how he and the band stagger toward their downfall. Matt and his Guns N' Roses bandmates Slash and Duff form Velvet Revolver with Dave Kushner and Scott Weiland. When Weiland suddenly leaves the band, Matt steps in as drummer for Motörhead during their US tour, and then starts his own all-star band, Kings of Chaos. During his time as a professional drummer, Matt battles alcohol and coke addictions, but meeting his girlfriend, Ace Harper, helps him manage to go clean. Matt Sorum's autobiography, written with writer duo Leif Eriksson and Martin Svensson, avoids all the usual rock biography clichés.
