Afroeurpean Cartographies-Dominic Thomas 2014-10-21 Literary production is increasingly shaped by globalization and the complex nature of cultural, political, and social interaction. As such, longstanding colonial and postcolonial relations between Africa and Europe have yielded a range of challenging questions, and new generations of writers with roots in Africa have invariably found themselves navigating new geographic terrains and negotiating racialized identities, while simultaneously exploring the potential of literature in addressing the...

Aux frontières de l'Europe-Paolo Rumiz 2012-04-01 En 2008, Paolo Rumiz entreprend un "parcours en zigzag, sur la fermeture éclair de l'Europe" : six mille kilomètres, depuis Rovaniemi en Laponie finlandaise jusqu'à Odessa en Ukraine. Il reçoit les confidences d'un pêcheur de crabes géants, de pulpeuses marchandes de crème aigre et de myrtilles, d'un prêtre naguère Rambo des forces spéciales en Tchétchénie... Il trouve, dans ces périphéries oubliées, l'âme de notre continent.

Annuaire Europeen 2000/European Yearbook 2000-Francis Rosensteil 2001-07-01 The year 2000's most significant international event was, almost certainly, neither political nor military, but scientific - the announcement, in June, that the human genome had been almost totally decoded. Future generations may well see this as a major turning point, opening the way to radical changes in diagnosis, prognosis, and medical treatment. Often compared with the space programme, this vast enterprise still generates misgivings: this new power, which human beings now have, to modify the genetic heritage of living creatures raises fundamentally new ethical questions - and society as a whole will have to find the answers. In fact, the accelerating pace of scientific and technical progress seems to be reviving atavistic anxieties, some rational, others less so. Recent public-health crises, including the mad cow disease scare, which lasted into 2000, have fuelled these fears. The public's rejection of GMOs (Genetically Modified Organisms) - verging on a crusade in some countries - tells its own story. As regards conflict, 2000 saw the Middle East peace process grind to a halt, and the Intifada resume. In Europe, the situation in Kosovo and Chechnya, both the scenes of fighting in 1999, stayed precarious. Peace and democracy did score some successes, however, particularly in Europe: the centre-left's victory in Croatia, sweeping former President Tudjman's party off the scene, the democratic party's triumph in Bosnia, and the fall of the Milosevic regime in Serbia.

Less Than a Human-Lavinia Allary 2015-10-21 Migrants in irregular situations are confronted with dangerous circumstances during their journeys toward Western countries and upon their arrival in those countries of destination. While continuously disputed by social and political forces, migrants and their children continue to live an isolated life in our communities, facing discrimination, abuse, and labour exploitation. Courts and tribunals in our societies try to make sense of this human mobility by sorting out basic human rights and economic privileges in a way which is too revolutionary for conservative parties and too slow and unfair for human rights activists. This book focuses on the issue of human rights protection of migrants in irregular situations. The concept of protection does not refer to a humanitarian definition of aid and intervention on behalf of the victims of migration. Protection here means official recognition by the State and by the law of migrants in irregular situations. It also means recognition of the human rights of migrants, recognition of the migrant as a political actor, and from there, political inclusion and politicization of the migrant. Discussions in international forums are dominated by Westphalian visions of the world, and no change can be envisioned in the near future with this kind of discourse. In a highly individualized and fragmented world, an undocumented migrants' destiny is instead decided on a case-by-case basis in our national courts, and today the most effort is put into advocacy and legal representation. How successful the rights claims are today, what the political context of their development is, and how social and political actors position themselves in regards to irregular migration are points discussed in this book. Annuaire Europeen 1988 - European Yearbook 1988-P. Drillien 1990-03-26 The European Yearbook has expanded over the years in keeping with the role played by European institutions compared with national ones. It is an indispensable work of reference for anyone dealing with these institutions, which have become so numerous & varied that no-one can possibly memorise all their acronyms or functions. The European Yearbook provides aids for finding one's way through the labyrinth of these organisations which coordinate a variety of activities in over 20 countries. One of the aids is an 'organisation chart' at the beginning of the documentary section, giving a clear picture of the general situation. A perusal of the many contributions in the volume organisation by organisation, shows the full diversity of the activities which Europe is gradually taking over from national governments, with their consent & financial support. Written in both of the Council of Europe's official languages, English & French, the European Yearbook also contains a general index by subject & name which constitutes a very valuable list of articles & provides direct access to the work's subject matter, regardless of the particular organisation concerned, offering a kind of cross-section of the activities of European organisations.

Vivre et construire l'Europe à l'échelle territoriale de 1945 à nos jours-Marie-Bénédicte Vincent 2010 L'Europe des régions, présentée à la fois comme une revendication des peuples et un objectif politique de l'Union européenne, est bien floue. Pour les Européens qui vivent dans des régions si diverses des réalités territoriales toutes particulières, le sentiment d'appartenir à un ensemble organisé au niveau supranational n'est pas évident. Dans quelle mesure les relations européennes initiées à l'échelle territoriale ont-elles joué un rôle dans l'appropriation par les Européens d'une conscience européenne ? Comment des contacts résultant d'initiatives de terrain ont-ils permis aux Européens de mieux se connaître, de se rencontrer, de vivre l'Europe au quotidien et de faire avancer la construction européenne ? Ce livre pose la question de l'incidence des pratiques locales sur la dynamique de la construction européenne et inversement. Les contributions d'historiens, de géographes et de politistes regroupées ici visent à faire le point sur les liens tissés entre les collectivités territoriales européennes et entre les sociétés qui y vivent depuis 1945. Des jumelages de communes aux grandes opérations régionales européennes en passant par toutes sortes d'initiatives associatives ou politiques et de relations variées dans les domaines scolaire, sportif, culturel, etc., une typologie et une chronologie de ces relations semblent se dégager.

Panique aux frontières-Eric L'Helgoualc'h 2011-06-09 Le débarquement récent de milliers de migrants a ravivé en Europe la peur d'une invasion étrangère. En France et en Italie, les gouvernements réclament le renforcement des contrôles à l'intérieur et aux frontières de l'espace Schengen. L'Union européenne, espace de libre

circulation des personnes et de promotion des droits de l'homme, semble peu à peu gagnée par une hostilité croissante à l'égard des étrangers. Quelle est la réalité des événements qui se déroulent aujourd'hui à nos frontières ? L'auteur a enquêté pendant un an sur le terrain, où il a rencontré responsables, migrants, dirigeants politiques et militants associatifs. Il nous livre un récit vif et éclairant, fruit d'une exploration sans détour de cette question complexe. Pour comprendre, par-delà les peurs. Eric L'Helgoualc'h, consultant en communication, diplômé en droit communautaire, a longtemps travaillé pour touteurope.fr, l'un des principaux sites français d'information sur les questions européennes. Il a également publié des chroniques pour nonfiction.fr, liberation.fr, rue89.com.

European Yearbook / Annuaire Europeen 1969-Council of Europe/Conseil de L'Europe 1971-01-07 The "European Yearbook" promotes the scientific study of nineteen European supranational organisations and the OECD. The series offers a detailed survey of the history, structure and yearly activities of each organisation and an up-to-date overview of the member states of each organisation. This special anniversary volume celebrates 60 years of publication of the Yearbook, and its contents differs from that of the regular volumes therefore. It offers a selection of the most important articles, dealing with European cooperation and integration, to appear in the Yearbook during its 60 years of publication. These are of particular interest not only because they provide a unique historical snapshot of the many successes (and occasional failures) in the field of European integration but also because they discuss the ideals and aims that lay behind these efforts, many of which still resonate today as Europe confronts questions about its political destiny and ideal shape. This volume contains articles in English and French. "

Memory and Migration-Julia Creet 2014-02-24 Memory plays an integral part in how individuals and societies construct their identity. While memory is usually considered in the context of a stable, unchanging environment, this collection of essays explores the effects of immigration, forced expulsions, exile, banishment, and war on individual and collective memory. The ways in which memory affects cultural representation and historical understanding across generations is examined through case studies and theoretical approaches that underscore its mutability. Memory and Migration is a truly interdisciplinary book featuring the work of leading scholars from a variety of fields across the globe. The essays are collaborative, successfully responding to the central theme and expanding upon the findings of individual authors. A groundbreaking contribution to an emerging field of study, Memory and Migration provides valuable insight into the connections between memory, place, and displacement.

Aux marges de l'Europe-Beat Leuthardt 2002 Dans une série de reportages de l'Espagne à la Lituanie, en passant par la France, l'Italie, l'Autriche et l'Ukraine, Beat Leuthardt nous fait entendre la voix d'immigrants et de réfugiés qui racontent leurs parcours et leur quotidien de travailleurs aux marges de l'Europe, et la voix des habitants de ces nouvelles frontières. Les politiques d'immigration de l'Union européenne ont fait de l'espace Schengen une forteresse bien gardée, transformant les voisins en étrangers et détruisant le tissu social et économique de vastes zones transfrontalières. Mais ces témoignages révèlent que des hommes et des femmes, avec courage et par solidarité, résistent et refusent de se soumettre aux nouvelles normes. Tous nous ferions bien d'entendre les hommes et les femmes qui vivent aux marges de l'Europe avant de continuer à discuter de l'Europe.

Les sociétés d'Europe du XXe au XXIIe siècle-Göran Therborn 2009-11-04 Comment faire la sociologie de l'Europe ? Comment a-t-elle évolué au cours de la seconde moitié du XXe siècle ? Qu'est-ce qui la relie au reste du monde ? Où va-t-elle en ce début de XXIe siècle ? En développant une sociologie comparative et historique des sociétés européennes à partir de l'analyse de données macrosociologiques, économiques, géographiques et culturelles, Göran Therborn présente une image inédite de la réalité sociale du continent, de sa diversité et de ses dynamiques de transformation de 1945 à nos jours. L'« Europe » n'est pas confinée ici à sa partie occidentale, et encore moins à la seule Union européenne, mais s'étend de l'Atlantique à l'Oural. A travers le croisement systématique des destinées de l'Europe de l'Ouest et de l'Est, avant, pendant et après la période communiste, cet ouvrage fondamental, véritable manuel de sociologie générale et comparative, interroge la trajectoire et la signification de la modernité européenne.

Science and Empires-P. Petitjean 1992 SCIENCE AND EMPIRES: FROM THE INTERNATIONAL COLLOQUIUM TO THE BOOK Patrick PETITJEAN, Catherine JAMI and Anne Marie MOULIN The International Colloquium "Science and Empires - Historical Studies about Scientific Development and European Expansion" is the product of an International Colloquium, "Sciences and Empires - A Comparative History of Scientific Exchanges: European Expansion and Scientific Development in Asian, African, American and Oceanian Countries". Organized by the REHSEIS group (Research on Epistemology and History of Exact Sciences and Scientific Institutions) of CNRS (National Center for Scientific Research), the colloquium was held from 3 to 6 April 1990 in the UNESCO building in Paris. This colloquium was an idea of Professor Roshdi Rashed who initiated this field of studies in France some years ago, and proposed "Sciences and Empires" as one of the main research programmes for the The project to organize such a colloquium was a bit REHSEIS group. of a gamble. Its subject, reflected in the title "Sciences and Empires", is not a currently-accepted sub-discipline of the history of science; rather, it refers to a set of questions which found autonomy only recently. The terminology was strongly debated by the participants and, as is frequently suggested in this book, awaits fuller clarification.
